

Technical data sheets for packing tape

1. Bopp jumbo roll	
Specification	
Backing material	BOPP film
Adhesive Type	acrylic
Color	clear, beige, cream white, tan, red, yellow, blue, green, black or customized printing etc.
Thickness	38-63 μ m
Width	980mm, 1000mm, 1270mm, 1280mm
Length	4000m, 4500m, 4800m
Application	
is commonly used for general industrial, food, beverage, medical pharmaceutical, paper, print, electronics, supermarket and distribution centers; securing packages and sealing box;	

3. Stationery tape	
Specification	
Backing material	BOPP film
Adhesive Type	acrylic
Color	clear, beige, cream white, tan, red, yellow, blue, green, black etc.
Thickness	38-63 μ m
Width	8mm, 9mm, 11mm, 12mm, 18mm, 24mm
Length	As per customer's requirements
Core	Plastic
OEM	Logo design on core & cartons can be made to meet customer's supplied requirements.
Application	
is commonly used for school and office	

2. Packing tape

Specification

Backing material	BOPP film
Adhesive Type	acrylic
Color	clear, beige, cream white, tan, red, yellow, blue, green, black or customized printing etc.
Thickness	38-63 μ m
Width	24mm, 36mm, 41mm, 45mm, 48mm, 50mm, 51mm, 52.5mm, 55mm, 57mm, 60mm etc.
Length	As per customer's requirements
Thickness of paper core	2.5mm, 3.0mm, 4.0mm, 5.0mm, 6.0mm, 8.0mm, 9.3mm or customized thickness
OEM supplied	Logo design on paper core & cartons can be made to meet customer's requirements.

Application

is commonly used for general industrial, food, beverage, medical pharmaceutical, paper, print, electronics, supermarket and distribution centers; securing packages and sealing box;

4. 2-Ethylhexyl acrylate (2EHA)

Specification

Item	Unit	Value
Purity	Wt%	≥ 99.5
Pt-co	APHA	≤ 10
Water	Wt%	≤ 0.1
Inhibitor	PPM	15 ± 5
Acid	Wt%	≤ 0.01

Application

2-ethyl hexyl acrylate is an important plasticizing industrial monomer raw materials, it is used to manufacture of a variety of plastics, resins, adhesives, inks and other monomer polymerization.
